

The NFD 1267 is a 2D reader. This engine reads both 1D and 2D codes. It reads omnidirectional, so orientation of the code is not needed, both 1D and 2D codes will be recognized in any direction. The scan engine can easily read standard and high-resolution labels.

2D

# NFD 1267

2D reader

## Features

- Supports 1D and 2D codes
- Available with RS232 interface
- Zinc-dicast housing (IP65)
